

OLGA BORODCHAK

FRONT-END DEVELOPER

Toronto, Canada • +1(647)218-1730 • olga.leonovna@gmail.com • linkedin.com/in/olga-borodchak

Front-End Developer builds fast, accessible, and responsive web applications with HTML, CSS, JavaScript, React, and Vite. Experienced in creating scalable CSS architecture with design tokens, translating Figma designs into production-ready interfaces, and performing code and accessibility audits. Comfortable managing projects end-to-end, from design handoff to deployment with GitHub Pages and Netlify.

PROFESSIONAL EXPERIENCE

Front-end Developer (Freelance)

10/2022 – Present

- **GoPablo Renovation | Client Project – *in progress***

Leading the front-end improvement of a production website by auditing code quality, accessibility, and responsive design. Implementing a scalable design-token system, enhancing semantic HTML and ARIA support, and improving keyboard navigation to deliver a more accessible and maintainable user experience.

- **Portfolio (curlycoder.ca) | Personal Project**

Rebuilt my portfolio with Vite, HTML, CSS, and JavaScript, creating a reusable design-token system, modular CSS architecture, and GSAP animations to showcase 7 projects.

- **Esther Savina Psychologist Website | Client Project**

Designed, developed, and deployed a custom psychologist website from scratch using Vite. Built responsive layouts, implemented accessible navigation and modern UI effects, resolved Vite asset-path issues, and created a custom hero image blending effect with CSS gradient overlays before deploying the site to GitHub Pages.

- **Sinostar | Client Project**

Collaborated with a designer to deliver a commercial website using HTML, CSS, JavaScript, and GSAP. Developed responsive, interactive layouts, optimized media assets for performance, and ensured cross-browser compatibility and accessibility.

- **Weather App | Frontendmentor Project**

Built a weather application using HTML, CSS, and JavaScript that integrates OpenWeather and Pexels APIs to display real-time weather data with dynamic city-based backgrounds.

- **Tip Calculator | Frontendmentor Project**

Developed a React-based tip calculator using Vite with dynamic bill splitting, input validation, and responsive UI.

- **Figma-to-Code Projects**

Converted 10 Figma designs into responsive HTML/CSS websites using modern CSS and responsive design techniques.

EDUCATION

Complete Course of JavaScript, Git, GitHub

Udemy, 2023-2024

Front-End Development

CanSheCode Inc, 2022-2023

CDI College, Toronto, Canada

01/2014 - 12/2015
